

## Retro-Commissioning Express

# Optimize Your Building Systems and Save

When your building systems are running properly, you save energy and money! Receive generous incentives through LADWP's **Retro-Commissioning Express Program (RCx Express)**,\* designed to get the most out of your lighting and HVAC systems.

RCx Express incentives are available for a variety of energy efficiency measures when re-commissioning an existing commercial building.

By implementing one or more of the program's 13 measures, you receive cash incentives, save on energy costs and improve the efficiency of building operations.

### Incentives

Receive \$0.08 per kWh and \$1 per therm saved annually.

### Measures

The program offers rebates for 13 common controls and schedule-based commercial building optimization measures covering HVAC airside, HVAC waterside, and lighting. For the full list of measures, please visit [www.ladwp.com/RCX](http://www.ladwp.com/RCX).

### Who Can Participate

-  Available to all LADWP business electric customers
-  Buildings must qualify for one or more of the program's 13 measures
-  Suggested minimum building size is 50,000 sq ft

\*Retro-Commissioning Express is offered in LADWP's service area in partnership with SoCalGas.
